

**THE BISON**  
**BUFFALO BILL CHAPTER 27**  
**NATIONAL ACTIVE AND RETIRED FEDERAL EMPLOYEES ASSOCIATION**

**From the President:**

Happy 2012!!! We continue to face challenges in 2012. At the end of 2011, both National and State legislative bodies were still looking at Federal active and retirees benefits and salaries. We need to be in contact with all those representing us in Washington and Topeka. Wayne Stalnaker is the new legislative chair and will keep us informed. Thanks to Donna Gillett for her excellent service in this role. As NARFE members, we need to be active in recruiting new members. This will help widen our scope to inform active and retired Federal employees of what might affect their benefits. Fran Gast is doing a great job with membership but we all need to help. Billie Oertel has great programs planned and Ross Perkins is handling our financial status. Dick Hall is helping members and non-members apply for benefits and he will also be keeping us informed as the new NARFE-PAC officer. Helen Stewart will assume the role of Alzheimer's chair and we look forward to working with her. A BIG THANK YOU to Helen Gallagher for her service. Bill and Bonnie Lages will be helping in the meetings with sign in and raffle with Bill Aaron and organizing refreshments. David Knorr is the new parliamentarian and will help me keep on track during the meetings.

WOW!! What a great group of officers. Come join us at the meetings at The Heritage Center. If you want more information, please call me.

**From the 1st VP—Membership:**

“The Region V Vice President has congratulated members for their efforts in recruiting new members this fall. The Kansas new member numbers

are up. Some members are getting the information out. This time of year is very busy and part of that being busy is going to events where we see people who we do not see on a regular basis. There may be opportunities to come in contact with people who may appreciate the invitation to NARFE. Remember to get the information out to the active federal workers in your area also. We do have a good number of people who have received second notices to renew. We may have to increase our effort to retain current members.”

*Ann Murphy, Federation 2nd Vice President/Membership  
Committee Chair*

I want to thank all of our members for their assistance in recruiting and retaining members. Let's keep up the good work.

*Fran Gast*

**Second & Third Amendments to the U.S. Constitution**

**Amendment II** provides for “A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.”

**Amendment III** says that “No Soldier shall, in time of peace be quartered in any house, without the consent of the Owner, nor in time of war, but in a manner to be prescribed by law.”

These two amendments provide practical checks on the dangers of military tyranny both from without and from within. Civil control of the military is provided for by Art. I, Sect. 8; Art. II, Sect 2; and Art. III.

The **2<sup>nd</sup> Amendment** formalizes the right of the individual citizen to have effective means of self defense, as well as the means to function as militia if called. It gives civilians control of the military and has meant that control by a federal standing army of civilians has not been realized so far. In the states we have the citizens’ militia and National Guard units that continue to play a vital role in the defense of the nation. The National Guard is a much more formal military organization which must not be confused with militia. Also the federal government is prevented from infringing on the fundamental right of the people “to bear arms”. In recent years this right has been challenged by Progressives who have forgotten that it was the Boston Massacre when British soldiers killed unarmed Americans that helped convince citizens that they needed the right to bear arms.

The **3<sup>rd</sup> amendment** keeps soldiers from being uninvited occupiers of any citizen’s house be it in peace or time of war.

The original intent for Articles in the Constitution may be found in The Federalists Papers which are 85 essays written by Alexander Hamilton, James Madison, and John Jay for the New York City newspapers in 1787 and 1788 and which state the philosophical and patriotic reasons for the Constitution. They were published anonymously over the name of Publius.

**From the Legislative Chair:**

Quote from *The Washington Post* by Lori Montgomery: “The generous pension system enjoyed by millions of federal workers from clerks to senators and judges has emerged as a key target in negotiations between Vice President Biden and congressional leaders looking to restrain the growing national debt.” And if that is not

enough . . . Jim Miller, NARFE Kansas Legislative Representative and Ronald Richey have indicated that Gov. Brownback has “floated” his idea of a Flat Tax . . . and our income tax exemption might be somewhere in the mix. We must continue to be active with our representative and senators at both the Federal and State levels.

*Wayne Stalnak*

**From the Alzheimer's Chair:**

First, let me introduce myself to all of you. I let Diane Hall twist my arm and agreed to be Helen Gallagher's successor for reporting on Alzheimer's. I'm not her replacement because no one could ever replace Helen, or maybe another Helen could. I'm Helen Stewart and I retired from Fort Leavenworth two and a half years ago after 46+ years of service. Helen G. has been a co-worker and friend for over 35 of those years. As my arm was twisted, I also twisted by sister's arm to help me with the Alzheimer's program. Alice Theis retired from Fort Leavenworth eight years ago after 25+ years of service. I thought this article was interesting.

**Reverse Memory Loss in 12 Minutes!**

"People with foggy memories who did an easy type of meditation for 12 minutes a day achieved higher scores on memory and attention tests after eight weeks than those who listened to classical music for the same amount of time, reports the Journal of Alzheimer's Disease. The techniques, called *kirtan kriya*, boosts blood flow to areas of the brain responsible for retrieving memories, explains study author Dharma Singh Khalsa, M.D.

"Try it yourself. Sit comfortably with your back straight. Then, while repeating the sounds "sa, ta, na, ma," touch your thumb to your index finger, then middle, fourth and fifth fingers. Do this out loud for two minutes, in a whisper for two minutes, in silence for four minutes, a whisper for two more minutes and out loud for two minutes." *Woman's World*, 7/10
